Youth Center
The CYP Youth Sponsorship Program is designed to provide transition support to military children via introduction, program insight, club involvement and community awareness. Inbound students are able to connect and become familiar with the base’s youth program offerings, make connections with local student Youth Sponsorship Representatives, and to gain insight into the programs they will be involved in once they arrive to the base.

Contact the Youth Center for more information and sign up for a youth sponsor today! YC1.NASPaXR.fct@navy.mil

Youth sponsorship programs can be found in schools throughout the Pax River region.

School based programs in the middle and high schools are typically referred to as S2S (Student 2 Student). S2S pairs new students with current students who will show them around campus, introduce them to others, and provide valuable information about the school and community. Be sure to ask about the program when you enroll.
