

GRADUATION REQUIREMENTS

In the state of Maryland, students must follow one of the two graduation pathways, completing classes that satisfy credit requirements. Additionally, students must pass high school assessments and complete service learning. Per COMAR 13A.03.02.01C, local education agencies can have graduation requirements beyond the minimum requirements established by the state. Graduation requirements for Calvert County and St. Mary's County public schools can be found in their program guide of studies:
